UN SOLO ORIZZONTE
35°41’22.22”N 139°41’30.12”E

5 ocean 5 video projections 5 time difference
24 hours recording in each place
one sea one sky one horizon one sun one moon

on the same circle of latitude I will shot 5 video for 24 hours, same cut
same landscape. From sunrise to sunset and then again sunrise, the full
circle. Then I will display the videos with rear-projection, each with it’s
own time difference. we will see one horizon cutting the five/one screens
attached, the sun and the moon will cross each screen, when on the
extreme left we have the sunrise in the extreme right we have the sunset
and so on..
